

Call for Applications for the 2024-25 Cohort of Volunteers

CorpsAfrica is a 501(c)(3) nonprofit organization founded in 2011 by a former Peace Corps Volunteer seeking to recognize and build on Peace Corps's enormous success by offering the same transformative experience to emerging leaders in Africa - giving them the chance to be a part of the solution for their own countries. CorpsAfrica applies some of the best approaches to international development, including empowering local communities, promoting collaboration among NGOs and our development partners, monitoring and impact evaluation.

CorpsAfrica is a non-profit organization that recruits and places ambitious young Africans in rural, high-poverty communities in their own countries to facilitate small-scale, high-impact projects that are identified by local community members, fulfill key needs, and whose impact and success can be carefully measured, all through a transformative volunteer experience.

CorpsAfrica Volunteers come from diverse backgrounds and experiences. In the past, these have included agriculture, gender, health, education, water and sanitation, environment, business, engineering, peace studies, language studies, as well as many others. The additional (and essential) skills that Volunteers need for their service--including community integration, proposal development, and project design and management--are taught as part of CorpsAfrica's expert training program.
